# INTRODUCING

Really Decent Gifts is the new sister company of Really Decent Books. It all started with a love of jigsaws - which turned out to be very useful during the recent lockdowns. The quality of the jigsaws we completed differed - and some of the designs were put together by people who plainly hadn't done a jigsaw before! We wanted to make good quality jigsaws, that would stand the test of time, with beautiful and fun designs. We hope you enjoy the selection for young and old so far...
